

Investment update

For the quarter ended 30 September 2020

NZ Funds Managed Superannuation Service LifeCycle - age 0-54

This fund update was first made publicly available on 29 October 2020

What is the purpose of this update?

This document tells you how the LifeCycle - age 0-54 investment option has performed and what fees were charged. The document will help you to compare the investment option with other investment options. New Zealand Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this investment option

The objective of LifeCycle is to allocate your investment across the three funds (Income Strategy, Inflation Strategy and Growth Strategy) based on your age to ensure your investment is allocated in a manner consistent with your investment timeframe. At age 0-54, your investment will be allocated as follows: 5% to the Income Strategy; 10% to the Inflation Strategy; and 85% to the Growth Strategy.

Total value of the investment option ¹	\$16,091,253
Number of investors in the investment option ¹	163
The date the investment option started	25 January 2017

What are the risks of investing?

Risk indicator for the LifeCycle - age 0-54:²

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.nzfunds.co.nz/AdviceSolutions/RiskProfile/

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

The risk indicator is not a guarantee of an investment option's future performance. The risk indicator is based on the returns data for the five years to 30 September 2020². While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

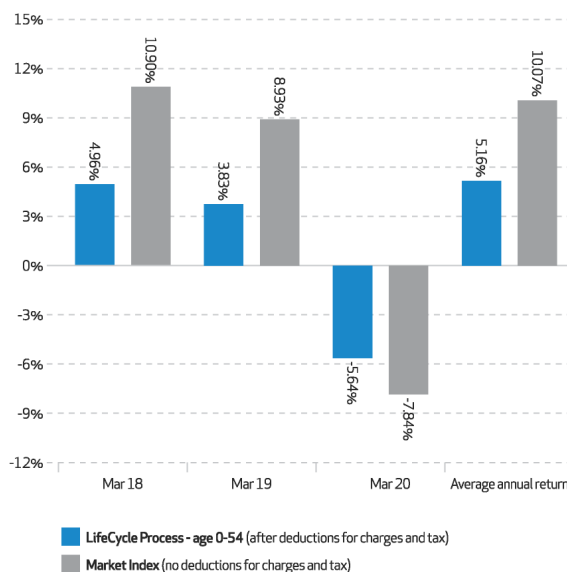

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this investment option.

How has the investment option performed?

	Past year
Annual return (after deductions for charges and tax)	4.83%
Annual return (after deductions for charges but before tax)	4.65%
Market index annual return (reflects no deduction for charges and tax)	6.92%

The market index annual return is based on a composite of the market indices for each Strategy weighted to reflect the investment option's allocation to each Strategy. The relevant market indices and weighting are set out in the Statement of Investment Policy and Objectives. Additional information about the market index is available on the offer register at www.companiesoffice.govt.nz/disclose.

Annual return graph³

This shows the return after fund charges and tax for each year ending 31 March since the investment option started. The last bar shows the average annual return since the investment option started, up to 30 September 2020.

Important: This does not tell you how the investment option will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the LifeCycle - age 0-54 are charged fund charges. In the year to 31 March 2020 these were:

	% of net asset value
Total fund charges	2.13%
Which are made up of:	
Total management and administration charges	1.78%
Including:	
Manager's basic fee	1.21%
Other management and administration charges*	0.57% (estimate) ⁴
Total performance-based fees	0.35%

*Note: Included within 'Other management and administration charges' are performance-based fees charged by external managers of underlying funds that the fund invested into which totalled 0.24%. Performance-based fees are subject to market movements and manager performance and the amount of these fees for any given period may materially differ from those disclosed for the year to 31 March 2020.

See the PDS for more information about the basis on which performance-based fees are charged.

Investors may also be charged individual action fees for specific actions or decisions (for example, if an investor has a financial adviser and has agreed to pay a fee to the adviser for providing financial advice). NZ Funds does not currently charge any establishment, contribution, termination, withdrawal or switch fees. See the PDS for the NZ Funds Managed Superannuation Service for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Liam had \$10,000 in the investment option at the start of the year and did not make any further contributions. At the end of the year, Liam received a return after fund charges were deducted of \$483 (that's 4.83% of his initial \$10,000). Liam did not pay any other charges. This gives Liam a total return after tax of \$483 for the year.

What does the investment option invest in?

This shows the types of assets that the investment option invests in.

Actual investment mix

Cash and cash equivalents	1.05%
New Zealand fixed interest	1.49%

Top 10 investments

	Name	Percentage of investment option net assets	Type	Country	Credit Rating
1	Westpac current account	12.52%	Cash and cash equivalents	New Zealand	A-1+
2	Citibank Hong Kong USD current account	8.52%	Cash and cash equivalents	United States of America	A-1
3	Suvretta Offshore Fund	7.99%	International equities	Cayman Islands	
4	Goldman Sachs NZD margin account	5.87%	Cash and cash equivalents	United Kingdom	A-1
5	Goldman Sachs USD margin account	4.34%	Cash and cash equivalents	United Kingdom	A-1
6	Uber Technologies Inc	3.89%	International equities	United States of America	
7	Emerson Point Capital Partners LP	3.33%	International equities	United States of America	
8	Citibank New Zealand NZD current account	2.79%	Cash and cash equivalents	United States of America	A-1
9	Meridian Energy	2.60%	Australasian equities	New Zealand	
10	Chorus	2.47%	Australasian equities	New Zealand	

The top 10 investments make up 54.32% of the investment option.⁶

NZ Funds actively manages the foreign currency exposure of the investment option. Where the investment option holds assets denominated in a foreign currency, NZ Funds has the choice of whether to hedge back to the NZ dollar or retain a foreign currency exposure. The investment option may also take active foreign currency positions by holding non-NZD cash and/or foreign currency derivatives. As at 30 September 2020, the investment option's foreign currency exposure was 23.34%.

Key personnel

This shows the directors and employees who have the most impact on the investment decisions of the investment option.

Name	Current position	Time in current position	Previous or other position	Time in previous or other position

Mark Brooks	Head of Income and a Principal	12 years 10 months	Senior Portfolio Manager, Credaris	3 years 4 months
David Haslam	Senior Dealer	3 years 9 months	Equities Trader, UBS NZ	0 years 11 months

Notes

1. The total value and number of investors in the NZ Funds Managed Superannuation Service LifeCycle overall is \$29,946,330 and 272 respectively.
2. As the investment option started on 25 January 2017, actual returns for the last 5 years are not available. To calculate the risk indicator, a combination of actual returns and market index returns have been used. Market index returns were used for the period prior to 25 January 2017. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
3. The bar graph shows investment option returns after the deduction of fees and tax; however, the market index returns are shown before any fees or tax are deducted.
4. Other management and administration charges comprise:
 - (a) operating costs directly incurred by the investment option; and
 - (b) annual management fees, performance-based fees and operating costs incurred by underlying funds the investment option invests into.

Estimates were used when deriving annual management fees, performance-based fees and operating costs incurred by the following underlying funds the investment option invested into.

Fund	Information and assumptions used to make estimates
Suvretta Offshore Fund	The fee and operating cost amount obtained from the manager of the fund was for the year to 31 December 2019. Performance fee amounts are estimated using the same criteria used by the administrator of the fund.
Emerson Point Capital Partners LP	The fee and operating cost amount obtained from the manager of the fund was for the year to 31 December 2019. Performance fee amounts are estimated using the same criteria used by the administrator of the fund.

5. Targets indicate what are expected to apply over the course of an economic cycle and should be considered as general guidance only. NZ Funds is an active manager and may use investment strategies that differ materially from the targets.
6. The top 10 investments have been compiled using a balance sheet approach. This differs from the approach used in compiling the actual and target investment mixes, which include the impact of derivatives.
